FRENCH FIGHT DESPERATELY

To Win Back Kemmel Hill and Halt Enemy—Furious Battle is Being Fought Over Strategic Position.

London, April 26 (to Reuter Ottawa Agency)—The French have attacked Kemmel Hill and a furious battle is raging, says a dispatch from Reuter's correspondent at British headquarters in France.

The Germans have attacked from La Cloyte to the Ypres-Comines canal, the dispatch adds.

The Franco-British armies, attacking from Villers-Bretonneux to opposite Hangard, have made progress. All night long the fight went on and it was not until Friday that the Germans succeeded in storming up the slope of the height.

The loss of Kemmel hill is serious, for it overlooks much of the lowlands back of the Allied lines in the Ypres salient. The hill is 464 feet in height, rising from lowlands on the south and east. It is six miles southwest of Ypres and three miles southwest of Wycheate.

Counter Attack is Success, Says French

Paris, April 26—A counter attack against the German lines from Villers-Bretonneux to south of the Luce was launched this morning by our troops, who succeeded, despite the fiercest resistance of the enemy, who had brought up important forces, in retaking a large part of the ground which had been lost in that region, says the official statement issued by the War Office tonight.

Allies Gaining Ground, But Fight in Face of Great Odds

With the British Army in France—April 26—The Allied arms today were taking the initiative on both the northern and southern ends of the battle front. This morning the British and French troops, acting in conjunction, began counter operations in the region of Mont Kemmel and the neighboring territory which the Germans captured in yesterday's sanguinary struggle.

The aggressors at the time of the filing of this dispatch had made some progress, but they were battling in the face of great odds.

BIG MASS MEETING TOMORROW NIGHT

Plans for the big mass meeting at the Washington Opera House Sunday night in honor of the boys who leave Monday for Camp Zachary Taylor are well under way. It is probable that the meeting will include the boys who leave next Thursday for Fort Thomas. Word was received here this morning that Hon. Edgar B. Hager, of Ashland, would be present and make the address of the evening. Mr. Hager is well known here and is a orator of considerable merit. The musical program will be under the direction of Mr. Carl Dadds. All should go out and make the boys realize our interest in them.

DR. MUSSELLMAN CONFERS WITH STOCK SALE BOOSTERS YESTERDAY

Dr. S. F. Musselman, of Frankfort, State Veterinarian, was here yesterday to confer with members of the Stock Sales Division of the Chamber of Commerce. For some time past it has been required by the state that no Ohio cattle be admitted to Kentucky unless examined by a state inspector and a certificate issued as to their being healthy. This caused some little worry to the local promoters of the stock sales and it was for this reason that Dr. Musselman was invited to come and talk over the situation. He stated that he would at once appoint Dr. Phillips as an extra inspector for Maysville to assist Dr. Moody.

The John Deere Corn Drill

This is a new and up to date drill with double disc openers. It is equipped with the Deer edge-selection drop and has new tip-over hopper, exactly like the New Deere Corn Planter. The seed plates are driven by a set of strong bevel gears and pinions.

There are three rows of teeth on the drive wheel, giving three drilling distances for each seed plate. The drive wheel is built with an improved form of traction lug, lugs being extended on each side of rim of wheel, so as to secure a good grip on the ground and at the same time be self-cleaning.

Disc openers are shaped with a double curve so as to offer the least resistance in opening a furrow. They are provided with ample bearings, which are readily oiled.

Polished steel counter covers are used. These are provided with a number of holes to secure the desired slant to cover properly under varying conditions.

An adjustable gauge or pressure wheel with concave rim can be furnished on special order at additional price.

The seeding mechanism is thrown in and out of gear by means of a hand-tappet on right handle-grip.

SOUND BODY

What are the requirements in making oneself fit for business life?

1. And sound bodily condition such as will not permit of the breaking down of any part, because loss of time through sickness means loss of money, demoralization of business, and lessens production, not to mention the possible loss of life.

2. Strength and endurance in the form of working capacity. Energy is essential in concentration. It is the factor back of a man's character that makes him capable of persistence. Energy and endurance are the vital qualities back of initiative, ambition and "push."

3. The ability to endure the strain and tension of civilized life. This is not in the form of exposure to cold and wet. It is of a different kind. It involves nervous strain, mental strain, often emotional strain. The excitement of business life may be just as wearing as the strain of battle. One never knows when he will meet some crisis which will tax his system, his heart, his nerves, his powers of resistance generally, to the breaking point.

The first requirement in hardening and conditioning the body is exercise. Remember that it is not a case of strengthening the large external muscles merely. Exercise is chiefly valuable because it builds constitutional strength, because it means exercise for the internal organs as well as for the muscles. And because the constitutional strength so built up and the improved quality of the blood so acquired are the basis of that nervous strength which is necessary to endure strain of any kind.

No one who is soft is fit for peace, any more than for war. And there is only one way by which one can build bodily vigor. An ideal mental attitude will not do it, important as that may be. Good food, sleep, cleanliness, fresh air, and other health factors, important as they all are, will not make one strong unless he takes a certain amount of exercise.—Physical Culture.

Our achievements are less than our intentions usually. Let us aim high.

Plan Your War Garden Now, Save Time and Money.

HELP INCREASE OUR EXPORT FOOD STOCKS

N CITY and country more war gardens are needed this year than ever before. Patriotism prompted 2,000,000 Americans to plant gardens last year, according to estimates of the United States Department of Agriculture. Transportation facilities of the nation will be strained this year hauling munitions of war and foods for the Allies. The surplus food created by home gardens will help in the railroad problem. And the nation will eat less of the goods we must export—wheat, meat, fats and sugar. Every boy and girl that helps with the garden is helping win the war. Leaflets of instruction in garden making may be secured from the Department of Agriculture at Washington, upon request, without charge.

Y. M. C. A. NEEDS MORE WORKERS

The necessity for increasing the number of Y. M. C. A. workers with the American and French armies is set forth in a statement received here today from the National War Work Council of the Y. M. C. A. by R. A. Cochran, chairman of the local recruiting committee for Y. M. C. A. workers.

Cablegrams from Army Y. M. C. A. officials now in France point out the extreme importance of this service for the soldiers and call upon America to furnish 350 men in addition to the regular quota of 300 men already asked for and the 300 previously requested for the French Army.

"Our chief secretary in France, E. C. Carter, wires that there are more than a hundred important posts without workers," said Mr. Cochran today. "Forty-seven of these are near the front and 28 are actually under shell fire. We believe that no college or bank presidency or big city pulpit is of so great national importance as a Y. M. C. A. hut secretaryship in France."

"The French government, through its premier and commander-in-chief, has asked an immediate extension of the Y. M. C. A. to the French armies. Knowing that we could not supply all the needs at once they have asked us to supply 250 men a month to man their Foyers de Soldat. The Italian army wants fifty men at once and promises to place at their disposal young Italians who can be trained quickly to extend the work on the Austrian front."

"Every Y. M. C. A. secretary in the country is burdened with the extra task of finding other men fitted to take up Y. M. C. A. work for the soldiers at home and abroad. We are seeking to enlist in the country at large in the next thirty days 400 men for service in the United States 400

for service with the American Expeditionary force under General Pershing; 300 for the French army huts; 100 to supplement the work in English Y. M. C. A. huts, and 75 to be sent to Italy.

"This is the service which requires the highest type of manhood. We are particularly seeking successful business men and professional men, those of high Christian character, good mixers, men resourceful and adaptable to conditions as they find them. We want the highest class of men Americans produced for the highest type of work of their fellowmen which can be offered."

"Some of them will be sent close to—perhaps actually up to the firing line. All will see conditions which tear men's souls. It is not an adventure filled with romance; there will be plenty of drudgery, long hours, and high tension, nerve-racking work. It demands ability to keep cheerful and bring inspiration to other men who are war weary, homesick and discouraged, and who are facing unusual temptations. It involves actual danger. It is no task for a man fond of ease or of low physical vitality. Yet we believe there are plenty of men who will find in the call to this service an opportunity of doing the greatest work of their lives, and that there are many who would offer themselves if they thought they could qualify."

"We also want chauffeurs, mechanics, accountants, clerks and stenographers, construction men to build huts, shipping men to handle the supplies, and many others."

There are at present 2335 American Y. M. C. A. workers in Europe. One hundred and fifty of these were compelled to retire before the German advance in Russia and are now in Siberia awaiting an opportunity to return.

WAR GARDENS IN MADISON, WISCONSIN

The plan of the Central War Garden Committee of the Association of Commerce under which all garden work in Madison will be done the coming season is to have ten thousand war gardens in the city this summer. An expert from the University of Wisconsin has been engaged to devote his entire time to supervising the work which will be divided into three classes, viz., the children's group gardens, the children's home gardens and the adults' gardens.

The third group will be divided into two classes—industrial and the individual gardens. The industrial gardens will be those cultivated by the employees of industrial plants and the individual gardens will be those cultivated by any of the citizens as individuals either on their own property or on that procured through the Central Committee.

The Girls' Civic League if the Association of Commerce is canvassing the city for all the land that is available for the purpose. The owners of vacant lots are expected to be sufficiently patriotic to donate the use of the ground.

The Committee has made arrangements to have the plowing of the gardens done in a systematic manner. On large plots of one acre or more tractors will be used and teams will be employed on the smaller lots. The problem of securing seed will be a serious one this year, and the committee is expecting to secure it from the large seed houses at special prices for combination packages suitable for the small garden. A carload of seed potatoes including both early and late varieties will be obtained through the Agricultural Department of the University of Wisconsin. These seed potatoes will be sold to the gardeners at cost.

Steps have also been taken toward procuring an adequate supply of plants, such as tomato, cabbage, etc., that have to be raised from the seed in greenhouse and then transplanted.

One real estate firm has shown its patriotism by agreeing to pull up the inside stakes of its platted ground and donate the land for garden purposes. This is quite a concession because the company will be compelled later to employ an engineer to replace the stakes.

The committee will insist that the

CARRY POTATOES; CARRY ON

"Carry on" is the cry that is rallying our British allies. Let's make it our war cry. We must carry on at home. And one of the first obligations is to save our big potatoes to surplus from waste. Get your market basket and carry home some potatoes to hold its line until the next harvest. Not only that, but millions of bushels of potatoes should be eaten with in the next few weeks or they will be wasted. Carry home some potatoes. Carry on!

GREAT FOR ECZEMA AND OLD SORES

I Guarantee My Ointment, Says Peterson. Stops Itching Instantly

"If you are responsible for the health of your family," says Peterson, "I want you to get a large 30 cent box of Peterson's Ointment to-day."

"Remember, I stand back of every box. Every druggist guarantees to refund the purchase price if Peterson's Ointment doesn't do all I claim."

"I guarantee it for eczema, old sores, running sores, salt rheum, ulcers, sore nipples, broken breasts, itching skin, pimples, blackheads, skin diseases, blind, bleeding and itching piles as well as for burns, scalds, cuts, bruises and sunburn."

"I had 30 running sores on my leg for 11 years, was in three different hospitals. Amputation was advised. Skin grafting was tried. I was cured by using Peterson's Ointment."—Mrs. F. E. Root, 287 Michigan St., Buffalo, N. Y.

BACKACHE IS A WARNING

Maysville People Should Not Neglect Their Kidneys.

Backache is often nature's most frequent signal of weakened kidneys. To cure the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Donn's Kidney Pills have been proved good and are especially for weak kidneys. Donn's have been used in kidney trouble for over 50 years. Read Maysville testimony.

Mrs. E. Sphar, E. Second and Walnut Sts., says: "I have never seen Donn's Kidney Pills fail to help anyone complaining of their kidneys. I have been greatly benefited by them myself. At times my back has ached and I have suffered from lameness through the small of my back. When I have been in that way, I have used a box or so of Donn's Kidney Pills, which I procured at Chanstor's Drug Store. They have always quickly removed the trouble."

Mrs. Sphar is only one of many Maysville people who have gratefully endorsed Donn's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DONN'S KIDNEY PILLS, the same that Mrs. Sphar had—the remedy backed by home testimony. 60 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back Is Lame—Remember the Name."

WHAT DO I GET OUT OF IT?

The age-old query of the selfish man.

It is going out of fashion of course in this day of co-operation and service and interdependence and general consciousness of civic duty but it will be with us in some form while human nature lasts. Every man owes to himself the selection of a location in which he can make a success of life. If business conditions are not what they should be in his city, he owes to himself, his business and his family such efforts as he can put forth to provide remedies. The Chamber of Commerce is the medium through which the citizens of the community exercise their civic rights. When the Chamber of Commerce works for the industrial, commercial and civic development of the community, it is working for you.

The fellow who always wants something to boot in a trade may live to kick himself.

"PRUSSIC ACID"—AND ITS ANTIDOTE
(By Leigh Mitchell Hodges of the Vigilantes.)

Prior to August, 1914, prussic acid was known as one of the deadliest poisons—but comparatively few persons were killed by it.

Since that time German autocracy has killed and maimed millions and jeopardized the life and liberty of all free nations by wholesale use of a new kind of Prussic Acid—a "hydrocyanide" of brute force which, if not hindered, will be as fatal to freedom as the prussic acid of the laboratory to him who inhales its deadly vapor.

With this deadlier Prussic Acid, the Kaiser and his crew are trying to poison the minds as well as the bodies of those who will not submit to the domination of might. Thus far he and his hell-mates have succeeded fairly well—but a new antidote for this poison will check the peril if applied.

Americanism is its name, and the method of application is as follows: As soon as symptoms of the poisoning appear—either in the form of trench, air or submarine raids or German propaganda—planting, take one large dose of Americanism in the form of Third Liberty Loan bonds.

The effect will be instantaneous. At once the purchaser will pass from a state of approaching despair to an unprecedented degree of satisfaction at having backed up the boys who are fighting for freedom and the millions of men and women who are working to help win the war. This will be followed by a sense of security in having strengthened our defenses against devilism, and at the same time the

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy. It taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

effect on the foe will be that of a powerful emetic—causing them to throw up their hands in horror at the thought of such whole-hearted support of the Allied Cause.

For the average American the dose suggested is from \$50 to \$500—taken daily in small quantities over a long period, or swallowed at one time and followed by a feeling of happiness which cannot be appreciated until experienced.

And while this is suggested as the most admirable antidote for this poison, it also possesses the peculiar quality of providing a "pill" for Kaiser Bill at the same time. Testimonials from millions of Americans who already have used this remedy and like it so well that they are going to lay in another large supply, make clear the need for buying your bonds early!

TWO BILLION MARK PASSED

Washington, April 26—The third Liberty Loan, rounding into the home stretch today, swept past the \$2,000,000,000 mark as patriotic celebrations throughout the nation marked the passing of Liberty Day.

President Wilson reviewed a parade of 50,000 Liberty Bond buyers from the front of the White House during the afternoon.

Treasury official reported the nation gathering its energies for the closing eight days and were confident the country's third great war loan will not fail at the final test.

Committee From Chamber of Commerce Visits Boat and Find That Every Precaution Is Taken to Safeguard Passengers.

A meeting of the directors was held in the assembly hall of the Chamber of Commerce Thursday afternoon. The application of J. R. Davis was received and upon ballot elected to membership in the organization.

A communication from the Mississippi Valley Waterway Association was received inviting the local Chamber of Commerce to send representation to the first annual meeting at St. Louis on May 14 and 15. The secretary was instructed to communicate to them the regret in not being able to send representation and assure them that we fully appreciate and endorse the good work being done by them.

A report of the activities of the Stock Sales Division was received and the directors expressed their deep appreciation of the active work being done by this division.

The attention of the directors was called to the fact that the management of the Homer Smith was endeavoring to maintain a respectable excursion boat and deserved the support of the best citizens of the community. Upon motion the president was instructed to appoint a committee to pay Mr. Smith a visit, learn of the endeavors being put forth and publish a report of its findings. The president appointed Mr. E. T. Kirk, W. L. Traxel, H. P. Purnell, J. Barbour Russell and Carl Dodds to carry out the wish of the Board of Directors.

The members of the committee visited the boat, talked with Mr. Smith and looked up the record of the present employees of the boat and reported they had found conditions prevailing are ideal and that the management of the boat has thrown around the passengers every safeguard that it is possible to place and that every precaution has been taken and is being carried into effect that would in any way protect those who use this beautiful boat for their friends and themselves.

BUSINESS CHANGES HANDS

Day and Night Garage Purchased Yesterday by Goldsby Farrar and John Jolly.

A deal was consummated yesterday whereby the Day and Night garage, located on East Second street, was sold to Messrs. Goldsby Farrar and John Jolly. The garage has been operated for some time by a stock company, of which Mr. J. Wesley Lee was president and manager. The purchase price was \$8,700.

The location of this garage is one of the best in the city. Both of the owners are practical young garage men and know how the business should be run. Mr. Farrar has had charge of the Keith & Keith garage for the past several years and Mr. Jolly has been employed by the Maysville Overland Company.

The new owners expect to get the agency for some good automobiles and will conduct a general automobile business.

It is expected that Governor Stanley will today appoint Judge J. H. Fryer of Falmouth, to preside over the Mason Circuit Court next week in two cases in which some of Judge Newell's relatives are involved.

"I SUFFERED SEVEN YEARS"

Was Eventually Cured by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered for seven long years with a lame back, irregularities and pain. I had one physician after another but they did me no good. I read about Lydia E. Pinkham's Vegetable Compound and gave it a trial and in a short time I felt benefited and am now feeling fine, and without weakness or pain. Many of my friends have also taken Lydia E. Pinkham's Vegetable Compound and been helped by it."—Mrs. MARGARET NESS, 1846 E. Hazzard St., Philadelphia, Pa.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, sideache, headaches or "the blues" should not rest until they have given this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for special suggestions. The result of its long experience is at your service.

PEOPLE ARE RESPONDING

To Fuel Administration's Request That Coal Be Ordered Early—Should Not Become Impatient If Orders Are Not Filled Promptly.

The Fuel Administration is greatly encouraged by reports from many parts of the country as to the progress of its campaign for the early ordering of next winter's supply of coal by both domestic and industrial coal consumers, particularly in the Eastern part of the country. A floor of orders for next winter's coal supply is reported. Both coal producers and retailers report orders filed vastly in excess of the amount available for immediate delivery.

With millions of tons ordered, of course, it has been impossible to effect complete deliveries. This has given rise to some complaint among those who are patriotically responding to the request of the Fuel Administration and have sought to lay in their winter's supply. It will be readily appreciated, however, that the mines cannot produce and the railroads cannot deliver the whole annual coal supply of the country within two weeks. The Fuel Administration, however, will exert every effort to expedite deliveries and to effect the distribution of a maximum amount of coal during the summer months.

With the country's coal supply largely ordered ahead, the Administration will be in position to act promptly and facilitate the movement of an adequate supply of coal to meet the demand. The railroads will be enabled to judge of the traffic facilities which must be made available for aiding coal production and for distributing the supply.

The fact the consumers cannot secure immediate delivery should not deter them from placing their orders at once. These early orders once on the books become the basis for the determined drive to secure an adequate production and prompt distribution. Promptness in ordering and patience in waiting deliveries are needed as a basis for the co-operation of the whole country with the Fuel Administration in its effort to do its share of the Nation's war work.

S. P. BROWNING,
Fuel Administrator Mason County.

THE GO-TO-SUNDAY SCHOOL DAY MOVEMENT

Early in 1914 the officers of the Kentucky Sunday School Association, at the suggestion of the General Secretary, decided to designate the first Sunday in May as Go-to-Sunday-School Day and to ask each Sunday School to observe that day. The Governor of the State issued a proclamation calling upon all the people of the State to attend Sunday School, newspapers published invitations, posters were put up over cities and towns, calls were made; in short, about everybody in Kentucky must have heard about Go-to-Sunday-School Day and received an invitation or two to attend Sunday School.

From the beginning the movement was a success, and it has become an annual custom of Kentucky Sunday Schools to have a Go-to-Sunday-School Day. This year the call is issued to every man, woman and child in Kentucky to attend Sunday School and to enlist for service in the Army of Christ.

Some of the good results in past years are an increase in attendance of more than one hundred per cent, an increase in enrollment of thousands, the bringing together in co-operative effort workers of many schools the finding of hundreds who have become church members, the enlisting of some of the most capable and earnest teachers.

The 1918 campaign is expected to bring these results:

One Million People at Sunday School May 5th.

Sixty Thousand New Members Enrolled.

One Thousand Schools Contributing to the Kentucky Sunday School Association.

Four Thousand Churches of Kentucky Gaining Some New Members.

A Deepening of Love and Loyalty to Our Country.

A Strengthening of the Feeling of Christian Brotherhood.

An Invitation Given to Everybody in Kentucky to Attend Sunday School and Church.

Leonard Refrigerators

Take This Opportunity to Learn All About Refrigerators

Come and let us tell you all the advantages of the famous Leonard Cleanable.

The four points on which every refrigerator should be judged.

1. The refrigerator must be designed so there will be proper circulation of air.
2. It must have a lining that is clean and sanitary—one that is easy to keep clean.
3. The insulation must be as nearly perfect as possible. This means the inside must be protected from the outside temperature like a thermos bottle.

4. The workmanship and material must be the very best possible.

Leonard Refrigerator has many porcelain linings, snow porcelain lining; the scientific construction for air circulation; the air tight locks, making the doors practically self-closing; the carefully constructed leak proof drainage system. Your dealer will tell you in greater detail what we are describing here. He will be glad to explain every point to you.
